<p>These policies serve as a guide to assist you in accurate claim submissions and to outline the basis for reimbursement by Healthy Blue if the service is covered by a member's Healthy Louisiana benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member's state of residence. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with CPT codes, HCPCS codes and/or revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to both participating and nonparticipating providers and facilities.</p> <p>If appropriate coding/billing guidelines or current reimbursement policies are not followed, Healthy Blue may:</p> <ul style="list-style-type: none"> • Reject or deny the claim. • Recover and/or recoup claim payment. <p>Healthy Blue reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by mandates in provider, state, federal or CMS contracts and/or requirements. System logic or setup may prevent the loading of policies into the claims platforms in the same manner as described; however, Healthy Blue strives to minimize these variations.</p> <p>Healthy Blue reserves the right to review and revise our policies periodically when necessary. When there is an update, we will publish the most current policy to this site.</p>		
Policy	<p>Healthy Blue does not allow separate reimbursement for claims that have been identified as a readmission to the same hospital for the same, similar or related condition unless provider, state, federal or CMS contracts and/or requirements indicate otherwise. In the absence of provider, federal, state and/or contract mandates, Healthy Blue will use the following standards:</p> <ul style="list-style-type: none"> • Same-day readmission • Same diagnosis or diagnoses that fall into the same grouping

	<p>Healthy Blue will utilize clinical criteria and/or licensed clinical medical review for readmissions from day 2 to day 30 in order to determine if the second admission is for:</p> <ul style="list-style-type: none"> • The same or closely-related condition or procedure as the prior discharge. • An infection or other complication of care. • A condition or procedure indicative of a failed surgical intervention. • An acute decompensation of a coexisting chronic disease. • A need that could have reasonably been prevented by the provision of appropriate care consistent with accepted standards in the prior discharge or during the postdischarge follow-up period. • An issue caused by a premature discharge from the same facility. • A reason that is medically unnecessary. <p>Readmissions occurring on the same day for symptoms related to or for evaluation and management of the prior stay’s medical condition are considered part of the original admission and should be combined. Healthy Blue considers an admission or readmission to the same hospital for the same, similar or related condition on the same date of service to be a continuation of initial treatment.</p> <p>Healthy Blue reserves the right to recoup and/or recover monies previously paid on a claim that falls within the guidelines of a readmission for a same, similar or related condition as defined above.</p> <p>Exclusions</p> <ul style="list-style-type: none"> • Admissions for the medical treatment of cancer, primary psychiatric disease and rehabilitation care • Planned readmissions • Patient transfers from one acute care hospital to another • Patient discharged from the hospital against medical advice <p>This policy only affects those facilities reimbursed for inpatient services by a DRG methodology.</p>
