

Louisiana State Opioid Response (LaSOR) Project

LDH-OBH in Partnership with LSUHSC–Dept. of Psychiatry

LSU Health
NEW ORLEANS

Seeking Providers!

Seeking office-based opioid treatment (OBOT) providers within the 10 Local Governing Entities (LGE)/regional areas of the state to expand access to care to at risk population groups.

- OBOT patient services are supported by a Spoke Care Team (SCT) consisting of a registered nurse (RN) and a licensed mental health professional.
- Within each treatment region each OBOT will serve 20 new patients in year 1 and 10 new patients in year 2 over the two-year grant.
- Financial support provided to participating OBOT providers.
- Professional Consultation – Board Certified Addiction Psychiatrists will provide consultation to MAT providers.
