Caring for Children with ADHD: a provider eLearning experience offered by Healthy Blue

Healthy Blue is pleased to offer Caring for Children with ADHD, a compelling life-based learning experience, for Healthy Louisiana providers. The course is based on Caring for Children with ADHD: A Resource Toolkit for Clinicians (<https://bit.ly/2oh4Ejv>), a collaborative project between the Louisiana Chapter of the American Academy of Pediatrics (LAAAP) and the Louisiana Department of Health. Providers may apply their completion of the course toward continuing medical education (CME) credit certification. See the *About* section of the course for CME details.

How will this eLearning experience benefit me?

By completing the Caring for Children with ADHD course, you will learn how to apply best practices, along with:

- Insight into your role in assessing young patients with a potential ADHD diagnosis and their treatment.
- The benefits of using the toolkit.
- How to integrate the contents of the online toolkit into your electronic medical record and office workflow.
- How to address disparities and reduce ADHD stigma in diverse populations.
- How to apply the most effective and age-appropriate multimodal treatment plan for children with ADHD.
- Proper medical coding for ADHD that will help ensure you are correctly compensated.

Access the LAAAP Resource Toolkit for clinicians

Before you take the course, please access Caring for Children with ADHD: A Resource Toolkit for Clinicians:
