

Reimbursement Policy		
Subject: Split-Care Surgical Modifiers		
Effective Date: 01/01/20	Committee Approval Obtained: 07/13/20	Section: Coding
***** The most current version of our reimbursement policies can be found on our provider website. If you are using a printed version of this policy, please verify the information by going to https://providers.healthybluelouisiana.com .*****		
<p>These policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by a Healthy Blue Dual Advantage (HMO D-SNP) member's plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member's state of residence. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with CPT® codes, HCPCS codes and/or revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to participating providers and facilities; a noncontracting provider who accepts Medicare assignment will be reimbursed for services according to the original Medicare reimbursement rates.</p> <p>If appropriate coding/billing guidelines or current reimbursement policies are not followed, Healthy Blue Dual Advantage may:</p> <ul style="list-style-type: none">• Reject or deny the claim.• Recover and/or recoup claim payment. <p>Healthy Blue Dual Advantage reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by mandates in provider, state, federal, or CMS contracts and/or requirements. System logic or set up may prevent the loading of policies into the claims platforms in the same manner as described; however, Healthy Blue Dual Advantage strives to minimize these variations.</p> <p>Healthy Blue Dual Advantage reserves the right to review and revise its policies periodically when necessary. When there is an update, we will publish the most current policy to the website.</p>		
Policy	<p>Healthy Blue Dual Advantage allows reimbursement of surgical codes appended with split-care modifiers unless provider, federal or CMS contracts and/or requirements indicate otherwise.</p> <p>Reimbursement is based on a percentage of the fee schedule or contracted/negotiated rate for the surgical procedure. The percentage is determined by which modifier is appended to the procedure code:</p> <ul style="list-style-type: none">• Modifier 54 (surgical care only): 80%• Modifier 55 (postoperative management only): 20%• Separate reimbursement for Modifier 56 is not allowed

	<p>The global surgical package consists of preoperative services, surgical procedures and postoperative services. Total reimbursement for a global surgical package is the same regardless of how the billing is split between the different physicians involved in the member's care. When more than one physician performs services that are included in the global surgical package, the total amount reimbursed for all physicians may not be higher than what would have been paid if a single physician provided all services.</p> <p>Correct coding guidelines require that the same surgical procedure code (with the appropriate modifier) be used by each physician to identify the services provided when the components of a global surgical package are performed by different physicians.</p> <p>Claims received with split-care modifiers after a global surgical claim have been paid will be denied.</p> <p>When an assistant surgeon is used and/or multiple procedures are performed, assistant surgeon and/or multiple procedure rules and fee reductions apply.</p>
History	<ul style="list-style-type: none"> • Biennial review approved 07/13/20: no policy language update • Initial policy approval effective 01/01/20
