A message from Louisiana Department of Health

Louisiana Mental Health Rehabilitation Provider Survey

As a result of input from the state's Mental Health Rehabilitation (MHR) providers and other stakeholders, the Louisiana Department of Health (LDH) is considering revisions to service definitions for Community Psychiatric Support and Treatment (CPST) and Psychosocial Rehabilitation (PSR) services. Through our many stakeholder meetings to discuss ideas for revisions to these services, we committed to providers that we would request a re-evaluation of rates for these two services under the redesign. Your input is needed at this time to help our actuaries glean vital information specifically for this project.

The **Louisiana Mental Health Rehabilitation Provider Survey** has been created to help inform LDH about MHR provider agency structure. This is a brief survey, but will provide essential information to assist this effort. Please provide only one survey submission per agency.

Responses are requested by Tuesday, April 20, 2021.
