SUBJECT: August 2021 Hurricane Ida Information for Medicaid Pharmacy

Pharmacists Authority to Dispense Prescriptions in an Emergency

The Louisiana Board of Pharmacy reminded pharmacists about Section 519 of the Board's rules, titled *State of Emergency* that has been activated and is now in effect. This rule is automatically activated whenever the Governor of Louisiana declares and/or renews a state of emergency for some or all of the parishes of Louisiana.

The rule states, in part:

"1. A pharmacist may work in the affected parish(es) and may dispense a one-time emergency prescription of up to a thirty day supply of a prescribed medication if: (a) in the pharmacist's professional opinion the medication is essential to the maintenance of life or to the continuation of therapy, and (b) the pharmacist makes a good faith effort to reduce the information to a written prescription marked "Emergency Prescription", then file and maintain the prescription as required by law."

The above is noted to instruct pharmacists of prescription regulations during a time of emergency. This applies to all patients, regardless of whether they have public or private health insurance coverage or are uninsured. Reimbursement for the prescription is not addressed by this regulation.
