Summary

COVID-19 testing and visits associated with COVID-19 testing

Healthy Blue will waive cost shares for Medicare Advantage members — including copays, coinsurance and deductibles — for COVID-19 tests and visits associated with the COVID-19 test (including visits to determine if testing is needed). Tests samples may be obtained in many settings including a doctor's office, urgent care, ER or even drive-thru testing once available. While a test sample cannot be obtained through a telehealth visit, the telehealth provider can connect patients with a test.

Telehealth (video + audio)

For COVID-19 treatments via telehealth visits, Healthy Blue will cover telehealth and telephonic-only visits from in-and out- of network providers. Healthy Blue waived cost shares through June 14, 2020, for out-of-network providers, and through February 28, 2021, for in-network providers.

Medicare Advantage members pay no member cost share for LiveHealth Online, * regardless of national emergency.

* LiveHealth Online is the trade name of Health Management Corporation, an independent company, providing telehealth services on behalf of Healthy Blue.

Telephonic-only care

In alignment with Original Medicare, through the duration of the public health emergency (PHE) Healthy Blue will cover telephonic-only visits with in-network providers for Medicare Advantage plans. Cost shares will be waived for in-network providers only through April 16, 2022.

Visit the CMS telehealth services guidance at <https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes> for a list of services payable under the Medicare Physician Fee Schedule when furnished via telehealth.

Prescription coverage

Healthy Blue is also providing coverage for members to have an extra 30-day supply of medication on hand. We are encouraging that when member plans allow that they switch from 30-day home delivery to 90-day home delivery.

How is Healthy Blue monitoring COVID-19?

Healthy Blue is monitoring COVID-19 developments and what they mean for our associates and those we serve. We are fielding questions about the outbreak from our customers, members, providers and associates. Additionally, our clinical team is actively monitoring external queries and reports from the CDC to help us determine what, if any, action is necessary on our part to further support our stakeholders.

Healthy Blue has a business continuity plan for serious communicable disease outbreaks, inclusive of pandemics, and will be ready to deploy the plan if necessary.

Our enterprise-wide business continuity program includes recovery strategies for critical processes and supporting resources, automated 24/7 situational awareness monitoring for our footprint and critical support points, and the Virtual Command Center for Emergency Management command, control and communication.

In addition, Healthy Blue has established a team of experts to monitor, assess and help facilitate timely mitigation and response where it has influence as appropriate for the evolving novel coronavirus threat.

In case of mass epidemic, how can you ensure that your contracted providers can still provide services?

Healthy Blue is committed to working with and supporting its contracted providers. Our benefits already state that if members do not have appropriate access to network doctors that we will authorize coverage for out-of-network doctors as medically necessary.

In addition, Healthy Blue's telehealth provider, [LiveHealth Online](#), is another safe and effective way for members to see a doctor to receive health guidance related to COVID-19 from their home via mobile device or a computer with a webcam.

What financial assistance is available for care providers during the COVID-19 crisis?

The *CARES Act* provides financial relief to lessen the impact of the COVID-19 crisis. Included in the law are new resources to address the economic impact of COVID-19 on employers of all sizes. The *Act* expands existing federal loan programs, creates new tax credits, postpones employment tax payments, and includes additional tax relief. To help care providers navigate the resources available to them, Healthy Blue has compiled information on programs we have learned about that could provide additional financial relief during this crisis.
